## Homework Grading Sheet

Due Thursday

Fill in the information above the dotted line completely and accurately. Not completing this form and/or not grading papers correctly/honestly will result in a maximum grade of 50. \*\*\*If less than 50% of an assignment is completed, the grade will be calculated as the number of questions correct/total number of questions (i.e.  $1/20 = 5\%$ ).

- 1) Homework Completion: Number of problems not done \_\_\_\_\_
- 2) Homework Accuracy: Number of X's (problems missed out of those completed) \_\_\_\_\_
- 3) I do not have my homework to turn in because

## Adding integers with Models

Write an equation to represent the value of the model.

<p>1.</p> 	<p>2.</p> 	<p>3.</p> 
<p>4.</p> 	<p>5.</p> 	

## Subtracting integers with Models

Model the following equations using counters or number lines.

<p>1.</p> $-6 - (-4) =$	<p>2.</p> $7 - (-3) =$	<p>3.</p> $3 - (-2) =$
<p>4.</p> $4 - 10 =$ 	<p>5.</p> $-5 - (-6) =$
