

Linear Inequality Homework

Name _____

Assigned 1/10/2020 Due 1/13/2020

Class Period _____

You MUST show ALL work to receive credit.

<p>1) Write the inequality for the graph shown:</p> 	<p>2) Write the inequality for the graph shown:</p> 
<p>3) Draw a graph for the given inequality:</p> <p>$-p \geq 5$</p> 	<p>4) Draw a graph for the given inequality:</p> <p>$-5 < -n$</p> 
<p>5) Solve the given inequality and graph the solution set:</p> <p>$3x \leq -18$</p> 	<p>6) Solve the given inequality and graph the solution set:</p> <p>$5x \geq -10$</p> 
<p>7) Solve the given inequality and graph the solution set:</p> <p>$-17x - 3 \leq 13 - x$</p> 	<p>8) Solve the given inequality and graph the solution set:</p> <p>$8 - 2x > -8 - x$</p> 
<p>9) Solve</p> <p>$25 + r = -5(2 + 8r) + 6r$</p>	<p>10) Solve</p> <p>$-28x + 6 = -3(1 + 7x) - 7x$</p>
