Rules, Expectations, & Policies

Cell Phone Policy

You may not use your phone in class. (No, not even for work - you have a school issued laptop. Take care of it.) You may choose to be responsible with your phone and put it away. If you don't trust yourself, you may use the classroom charging station.

Phones

Your first warning will be to put it away or in the charging station. Second warning, I keep it until the end of the day and call home. Third time, it goes to the office.
